ReeR **Safety Technology** for Industrial Applications

Introduction

ReeR brings you a wide variety of state-of-the-art safety devices crafted for the most demanding industrial automation challenges. Our line-up includes the EOS and Safegate safety light curtains, well-known for their reliable protection of fingers, hands, and bodies, along with access control that offers an integrated muting function. ReeR also provides the Mosaic Safety Controller and the innovative R-Safe RFID switch. These products are made for easy integration, simple use, and a solid, durable design that's perfect for industrial environments.

ReeR's Quality System is certified by **TÜV SÜD**, meeting the stringent **UNI EN ISO 9001:2008** standard.

This high level of quality is maintained through meticulous design, supplier oversight, and rigorous testing.

Certification:

SAFETY LEVEL	SAFETY LEVEL
TYPE 4	TYPE 2
SIL 3 - SILCL 3 PL e - Cat. 4	SIL 1 - SILCL 1 PL c - Cat. 2

Product range

- Compact design and easy installation with Type 2 and Type 4 safety levels
- Built-in EDM with manual or automatic restart
- Finger, hand and body detection
- Multi-beam grids for access control

- Ideal for access control of automated palletisers
- Pre-configured muting logics and pre-wired muting sensors
- Flexible configuration to cover all scenarios
- Wide range of accessories

ReeR and MECHTRIC collaboration

Combining **ReeR's** global expertise in industrial safety technology with **MECHTRIC's** commitment to quality, this partnership delivers advanced safety systems tailored to meet industry demands.

Together, we offer **world-class safety products** backed by trusted technical support, creating safer workplaces and ensuring reliable protection across sectors.

Mosaic Configurable Safety Controllers:

- Modular, configurable and expandable controllers for managing multiple safety devices
- Includes free design software for efficient setup, monitoring and simulation
- Supports multiple safety sensors, including light curtains, emergency stops, and door switches

RFID Safety Switches:

- Low and high level coding
- Connector, pigtail or cable connection
- Bright status LED
- Plus version for series connection of up to 16 sensors with serialised status output

SAFETY LEVEL	SAFETY LEVEL
TYPE 4 SIL 3 - SILCL 3 PL e - Cat. 4	TYPE 2 SIL 1 - SILCL 1 PL c - Cat. 2

EOS series - Safety light curtains

EOS series is a compact safety light curtain range with competitive performance and innovative features. Includes models with integrated safety functions such as self-monitoring static outputs, control of external contactors (EDM) and selectable automatic or manual restart. 2 safety PNP static outputs. Easy connection and installation thanks to the M12 connectors and the use of unshielded cables up to 100 meters.

- Power supply: 24 VDC ± 20%
- Dimensions: (W) 28 x (D) 30 mm
- Restart: Selectable manual/automatic Start/Restart
- Status display: LEDs for light curtain's status and diagnostic
- Integrated function: Integrated External Device Monitoring (EDM) function
- Mounting: Via back slot with provided standard mounting brackets
- Connection: Emitter: M12 5-pin - Receiver: M12 8-pin
- OSSD safety outputs: 2 PNP - 400 mA at 24 VDC with short-circuit, overload, polarity reversal protection

NEW

Safegate - Safety light curtains (with integrated muting functionality)

Safety light curtains with integrated Muting function for human material differentiation applications. Safegate guarantees the integration of the muting sensors directly to the safety light curtain.

Programmable models (SMPO) functional parameters configuration can be managed via Safegate Configuration Software (SCS).

Hardware configuration: No programming necessary, allows parameterisation and muting logic configuration.

Software configuration: Allows configuration of functional parameters, muting and additional functions (e.g. Filters, delays, partial muting etc).

3 Pre-Configured Muting Logic: Exit-Only (Parallel or Crossed Beams), Entry-Exit (Parallel Beams), Entry-Exit (Crossed Beams).

Muting sensors: MA Muting Arms, MZ Muting Brackets, any dark-on M12 5-pole photocell

General features:

- Power supply: 24 VDC ± 20%
- Dimensions: (W) 50 x (D) 55 mm
- Restart: Selectable (manual/automatic) Start/Restart
- Status display: LEDs for light curtain status and diagnostics
- Integrated function: External Device Monitoring (EDM) function
- Muting: Integrated muting function
- Mounting: Via back slot with provided standard mounting brackets
- Connection: Emitter: M12 5-pin - Receiver: M12 12-pin
- OSSD safety outputs: 2 PNP - 400 mA at 24 VDC with short-circuit, overload, polarity reversal protection

Human material differentiation

- Restriction of unauthorised access into dangerous zones

FREE DESIGNER SOFTWARE included with all master units

Mosaic - A unique safety controller: Modular, Expandable, Configurable

Mosaic is a modular configurable safety controller capable of managing all safety functions of machinery or plants. Made up of a Master unit which can operate as a stand-alone device or control up to 14 expansion units in a system.

Capable of monitoring several safety sensors and signals such as: light curtains - photocells - laser scanners - emergency stops - electromechanical switches - safety door switches - magnetic switches - safety mats and edges - two-hand controls - hand grip switches - encoders and proximities for safety speed control - load cells - pressure switches - temperature, flow and level measurements (*regardless of brand*).

- Power supply: 24V DC ± 20%
- Safety level: SIL 3, PL e, SILCL 3, Cat. 4
- Connections: Removable (*screw terminal*) blocks
- Mounting: DIN rail mounting according to EN 50022-35 standard
- Dimensions: (H) 99 x (W) 22.5 x (D) 114 mm

Advantages

- Tamper-proof system configuration
- Reduced control panel dimension, design and construction time
- Logic configured via graphic interface, eliminating laborious wiring as with traditional solutions
- **Simulation function** allows to validate system functionality without connecting to a machine

------	-------	----------------	------------------------	---------------------	----------------	-------------	-------

Mosaic master units

Master units can operate as stand-alone device or expanded with additional I/O modules.

M1 - Standard master unit

- 2 pairs SIL 3 OSSD safety outputs (*PNP 400 mA*)
- 2 inputs for Start/Restart interlock and external device monitoring (*EDM*)
- 2 programmable digital status outputs (*PNP 100 mA*)
- 4 test outputs (*for sensor monitoring*)

1100000	M1	8	2	2 pairs	2	standard master controller	769.00
1100005*	MZERO	16	4	4 pairs	4	standalone safety controller	1 122.00

* Not expandable

M1S/M1S COM - Enhanced master unit

- 4 single SIL 3 OSSD or (*2 pairs*) safety outputs (*PNP 400 mA*)
- 4 inputs for Start/Restart interlock and external device monitoring (*EDM*)
- 4 programmable digital status outputs (*PNP 100 mA*)
- 4 test outputs (*for sensor monitoring*)
- Remote monitoring and built-in Ethernet IP, Modbus TCP, EtherCAT and Profinet (*M1S COM only*)

1100003	M1S	8	4	4 or (2 pairs)	4	enhanced master controller	961.00
1100006	M1S COM	8	4	4 or (2 pairs)	4	master controller builtin comms	1 451.00

Accessories for M1/M1S/COM master units

1100060	MCM	memory card to store or duplicate master unit configuration as a backup					83.00
1100061	MSC	rear bus connector required to connect to any expansion module					33.00
1100039	USB	USB configuration cable for M1S/M1S COM (Type C, length 1.8 m)					55.00
1100062	USB	USB configuration cable for M1/MZERO (A-mini B, length 1.8 m)					38.00

Mosaic - Expansion modules

Input/output expansion modules provides additional digital inputs and outputs to the master unit

1100010	M18O2	2x pairs SIL 3 OSSD safety outputs, 8x digital inputs, 2x status outputs					635.00
1100011*	M18O4	4x single SIL 3 OSSD safety outputs, 8x digital inputs, 4x status outputs					731.00
1100021	MI16	16x digital inputs and 4x test outputs (<i>for sensor monitoring</i>)					609.00
1100025*	MA4	4x 4-20mA (or 0-10V) analogue inputs (<i>for analogue sensors</i>)					1 666.00

* Only compatible with M1S and M1SCOM enhanced Master unit.

1100031	MO4	4x pairs SIL 3 OSSD safety outputs, 4x status output					715.00
1100032	MO4LHC	4x single high current SIL 3 OSSD safety outputs (2A), 8x status output					769.00

Status outputs provides additional non-safety outputs to the master unit

1100092	MOS16	16x programmable digital (<i>non-safety</i>) signal outputs					538.00
---------	-------	---	--	--	--	--	--------

Safety relays provides safety relay outputs with guided contacts

1100041	MR4	4x safety relay outputs with guided contacts (6A 250 VAC)					438.00
1100043	MOR4S8	4x configurable safety relay outputs with guided contacts					769.00

Communication for connection to the most common industrial Field-bus systems

1100050	MBP	Profibus DP	module for diagnostics and data communication				936.00
1100051	MBD	DeviceNET	module for diagnostics and data communication				1 172.00
1100052	MBC	CANopen	module for diagnostics and data communication				869.00
1100054	MBE1	EtherNET IP	module for diagnostics and data communication				688.00
1100082	MBMR	Modbus RTU	module for diagnostics and data communication				1 086.00
1100133	MBE COM	Multi-protocol Ethernet IP, Modbus TCP, EtherCAT and Profinet				545.00	

Safety interfaces and relays

Allows four different operating modes offering the possibility to connect and control different types of safety devices including: Safety Light Curtains, Solid-State-Output Devices (*i.e. RFID safety switch*), Dual-Channel Emergency Stops, Two-Hand Controls and Type 2 Safety Photocells

- Power supply: 24 VDC ± 20%
- Electrical connection: On terminal block
- Dimensions: Relays - (H) 101 x (W) 35 x (D) 120 mm
Interfaces - (H) 99 x (W) 22.5 (35 mm - ADSRM) x (D) 114 mm

RFID safety switches 24 VDC SIL 3 - SILCL 3 - PL e - Cat. 4

R-Safe RFID non-contact safety sensors ensure reliable, tamper-proof protection by monitoring protective doors, gates, and guards, uniquely identifying passive RFID transponders for high coding levels and effective anti-manipulation. Offers easy installation and integration into safety systems up to PL e/SIL 3, with sensors capable of being individually coded in two ways.

- Generic coding:** The actuator is free and not specifically assigned to the sensor (*one actuator can work with multiple sensors*)
 - Teach-in coding:** Programmed via teach-in and permanently assigned to sensor during set-up
 - Indication: Super bright LED status indicators for immediate diagnostics
 - Output: 2 safety inputs and outputs and 1 diagnostic output
 - Connection type: M12 Connector, M12 Pigtail, cable
 - Mounting: Screw mounting **S** - inter-axis 22 mm
 - Can be installed individually or in series with up to 16 units (*accessories required*)
 - IP67 and IP69K protection (*cable versions only*) ensure excellent reliability in harsh environments
- BASIC:** Automatic restart / **PLUS:** Selectable Manual/Automatic restart and serial status output
